

THE SPRINGBOARD PROJECT

Our Mission:

"Springboard Project is a community based charity providing safe, accessible, inclusive play and recreation facilities to young people with special needs or disabilities and families with young children irrespective of status"

The Springboard Project is very much centred on the needs of families within the local community but, as a charity, we have to rely on grants, donations and gifts both financial and "in kind" to continue our work.

We are always pleased to have the involvement of everyone who uses this fantastic Centre and there are many ways in which you can help....

- Ideas and suggestions to help us meet your needs by giving us your comments or by joining our "Friends" group
- Volunteering any spare time you may have to help us in the Centre, or with our Activity Schemes
- Fundraising either as a group, on your own, arranging an event or sponsoring an activity...we can always help with ideas
- Contacts who you may know that may be able to help, such as your employer, a relation or a friend
- Donations and gifts are always welcome no matter how small...it all helps – even more with Gift Aid!
- Companies can help us in so many ways, such as donations, gifts, sponsorship or practical help

Springboard Project is unique in the way that it allows parents to bring their children to a Centre which provides them with so many facilities in a warm, friendly but safe environment, where both parents and children can see their friends, enjoy quality time and share experiences.
